GOOD NEWS FROM OPERATION RESCUE COLORADO

Spring 2012
Volume 24, Number 1

Heart

15 Years at the High Schools

Statistics are showing a shift in young people toward the prolife side. The majority now identify as prolife. I know we have noticed that change as we go to area high schools. It is a very encouraging trend that will impact the future.

On the other hand, we see those in places of power trying to force people who hold prolife views to compromise their beliefs. One example of that is ObamaCare and the insurance mandate. There has been a lot of news on religious institutions being upset that they would have to cover birth-control and abortion causing drugs in their employee insurance plans. What isn't being covered in the news is the multitude of Christian business owners who would face the same oppression. Is this really happening in America?

But there is more good news: many abortion clinic workers are quitting, abortionists are going to jail, and movies like *October Baby* are touching hearts.

In a week we will be going back to the high schools to present the prolife message. We have now been going every spring and fall for fifteen years. By God's power lives will be touched and changed.

Every week we continue to go to two different doctors offices where abortions are done. In addition to reaching out to the patients, we also impact thousands of people who are driving or walking by.

Here are some of the things we pass out:

We Need Your Help

We have amazing opportunities ahead of us that require people and money. Would you join us in prayer that those needs will be met?

Would you also consider joining us at the abortion clinic or the high school? We would love to have you with us. If you have never come before, it's not as scary as it may seem but immensely rewarding.

We also need your help financially. All of us are volunteers and our office space is donated. All of the funds that come in are used to change minds and hearts. We could really use any amount that you can send. Thanks for your involvement!

Your School?

We would like to expand the list of schools where we pass out literature. Is there one in your neighborhood that would be a good candidate? Give us a call and we will take it from there.

“HEALTHY FUTURES” PROJECT

Healthy Futures for Women is an abortion clinic in Englewood, Colorado. The abortionist is Stephen Hinds. On their website they boast that he has killed thousands. Steve Hinds does abortions through 20 weeks.

We normally picket Tuesday, Wednesday and Friday. We are plugging new people in on Fridays. Here is a great opportunity to show your passion for the unborn and their mothers.

PICKET THE ABORTION MILL

300 East Hampden

Come any Friday from 2:30 - 3:30 p.m.

Except for horrible weather days.

THE COHEN / WOMACK PROJECT

Harvey Cohen and Gail Womack are doctors of Obstetrics & Gynecology who do abortions at this Lakewood office. We want their other clients to know about this.

255 Union Blvd.

Our present schedule is as follows:

Every Monday - 11:00 a.m. to 12:00 p.m.

Here is our code of conduct:

We want to represent Christ in word and deed. We need to absorb any barbs that come our way and not respond with the same kind of stuff. Ephesians 4:29 says this: “Do not use harmful words, but only helpful words, the kind that build up and provide what is needed, so that what you say will do good to those who hear you.”

People will think of their encounter with us for a long time.

We want to make sure that it is something God can use to work on their heart and not something He wishes we didn't do or say.
